

II. Remarks

This application is a divisional application of prior application number 09/886,344 filed June 21, 2001. The present application was filed on October 3, 2003 while the parent application, now U.S. Patent No. 6,698,345, was pending. In the first paragraph of the present application the proper cross-reference to the related parent application was made, incorporating by reference the parent application in its entirety.

Applicant herein relies on that incorporation by reference to amend and provide Figures 27-30, which can be found in the parent application, that were inadvertently omitted from the submitted parts of the present application. Since the present application properly included the statement of incorporation by reference of the parent application, it is submitted that the insertion of these drawings is allowed by way of amendment without requiring the payment of the petition fee. As a precautionary matter, if the petition fee of \$1300.00 is required, authorization is given to charge the petition fee to the undersigned's Deposit Account No. 23-1925. If the fee is not required, Applicant herein requests that the petition fee be immediately refunded.

Respectfully submitted,

Eric J. Sosenko (Reg. No. 34,440)
